Functions and leather division

Headrest adjustment:

Sofas with headrest adjustment support you in a comfortable sitting position. The headrests can be individually adjusted to a tilted or upright position.

Back adjustment:

Thanks to the back depth adjustment, you have the choice. The backrest can be fixed in two positions. The basic position, in which the backrest is at the back, provides maximum seat depth. The backrest can also be adjusted a little forwards. This reduces the seat depth, which leads to a more upright sitting position.

If the sofa is ordered in leather the headboard gets an additional seam.

What is OEKO-TEX®?

Many of our fabrics and upholstery materials have been awarded the STANDARD 100 by OEKO-TEX® label. If a textile article has been awarded this label, you can be sure that this fabric or upholstery material has been tested for harmful substances and the article is therefore harmless to health.

- The testing is carried out by independent OEKO-TEX® institutes on the basis of a comprehensive OEKO-TEX® criteria catalogue.
- The test procedure takes into account many substances, both regulated and non-regulated, that could be harmful to human health.
- In many cases, the limit values set for the STANDARD 100 go beyond national and international standards.
