Product and ordering information

Frame:	Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cover.
Seat:	Spring system with permanently elastic steel sinuous springs and upper-side cover. Loose seat cushions made of HR/cold foam (at least RG 35), structured in layers harmonised in different thicknesses and hardnesses. Seat covered with a ticking (filled with high-quality filling materials, contain an admixture of feathers). We exclude „live plucking“ for the procurement of these feathers! Cover made of cotton wadding. Velcro strips are located under the seat cushions for a better grip.
Back:	Loose back cushions with HR/Cold foam (at least RG 25) with a ticking (filled with high-quality filling materials contain an admixture of feathers) and a cover of cotton wadding. We exclude „live plucking“ for the procurement of these feathers! (For illustration see „cross sections and ordering information“)
Upholstery:	Especially light upholstery is distinguished by its highly soft surface. In new condition, the covers exhibit a pronounced wave pattern purposefully based on the design and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on units are design-based and are therefore not a cause for complaint.
Chamber cushions:	This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.
Dimensions:	Height: 81 cm Depth: 90 cm Seat height: 46 cm Seat depth: 59 cm

cross sections and ordering informations

Miscellaneous:

All materials used meet the requirements of the DGM according to RAL GZ 430. The seam appearance may vary depending on the fabric, leather or vegan leather used. The markings on quilted mats and cushions are due to design or construction. The processing of decorative seams, cut seams or double seams can be different in the fabric, leather or leather or imitation leather variants.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back of the individual fabrics and leaterhs in our fabric and leather samplers.

All values stated in the price list are approximate measurements in centimetres, determined by the usual measuring method (see RAL-GZ 430) and in unused new condition. Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress.

Please note orders always as standing in front of it from left to right!

Goldenes M & Emissionslabel

Are you demanding? That's fine - we are too!

Therefore, we attach great importance to durability, material quality, longevity, safety and health tolerance!

Because our furniture meets the high standards of the Gütegemeinschaft Möbel e.V., our entire product range is awarded the quality mark „Golden M“ and the highest possible emission class A.

Quality mark „Goldenes M“

Nearly 50 years of research, laboratory tests, field tests, comparisons and scientific exchange is behind the RAL quality mark „Goldenes M“.

- Tested quality according to quality and test regulations RAL-GZ 430
- Guaranteed safety through elaborate laboratory and functional tests
- Healthy living through strict limits for pollutants - sometimes more stringent than the law requires, which were determined in independent test laboratories

The „Goldenes M“ means for the furniture buyer: This is quality, you can rely on.

Emission label

An expert group of the Deutsche Gütegemeinschaft Möbel e.V. has developed in collaboration with leading test institutes such as TÜV Rheinland, the LGA Nuremberg and the ECO Institute an Emission label for furniture.

- The label gives the consumer information about pollutant emission and should protect him from health protect impairments
- The entire range is classified according to these guidelines
- The proof of classifications is based on compliance of the awarding basis with appropriate pollutant tests from neutral testing institutes based on the requirements of RAL-GZ 430 or the Blue Angel's.

Our products meet the highest emission class „A“, which gives us a clear conscience and you a maximum of safety with regards to the emission levels of your upholstery.

OEKO-TEX® STANDARD 100 + klimaneutraler Hersteller

What is OEKO-TEX®?

Many of our fabrics and upholstery materials have been awarded the STANDARD 100 by OEKO-TEX® label. If a textile article has been awarded this label, you can be sure that this fabric or upholstery material has been tested for harmful substances and the article is therefore harmless to health.

You can find information on which of our upholstery fabrics are certified and other helpful information on our homepage at <https://www.candy-polstermoebel.de/bezuege/stoffe/>

The award offers you the following advantages:

- STANDARD 100 by OEKO-TEX® is one of the world's most renowned labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.
- The testing is carried out by independent OEKO-TEX® institutes on the basis of a comprehensive OEKO-TEX® criteria catalogue.
- The test procedure takes into account many substances, both regulated and non-regulated, that could be harmful to human health.
- In many cases, the limit values set for the STANDARD 100 go beyond national and international standards.
- The catalogue of criteria is updated at least once a year and expanded to include new scientific findings or legal requirements.

(example label)

We are a climate-neutral furniture manufacturer (on balance sheet and through CO₂ certificates)

We can proudly say that we have been awarded as a climate-neutral manufacturer by the DGM. Our actions are always oriented towards the careful use of resources in order to protect and preserve the livelihoods of people, animals and plants. For 3C, sustainability is not just an advertising promise - the development of sustainable products is a matter of course for us.
