## Product and ordering information

---

**Frame:** Load-bearing parts of the frame made of solid wood and wood materials, surfaces lined with padded cover.

**Seat:** Spring system with permanently elastic steel sinuous springs and upper-side cover. Loose seat cushions made of PUR foam (at least RG35), structured in layers and harmonized in different thicknesses and hardnesses. Seat covered with a ticking (filled with high quality filling material with an admixture of feathers)  
Cover of cotton wool fleece.

**Back:** We exclude „live plucking“ for the procurement of these feathers! (For illustration see „Cross-sections and ordering information“)  
Loose back cushions with a ticking (filled with high-quality filling materials contain an admixture of feathers).  
We exclude „live plucking“ for the procurement of these feathers!

**Upholstery:** Especially light upholstery is distinguished by its highly soft surface. In new condition, the covers exhibit a pronounced wave pattern purposefully based on the design and structure. The upholstery will adjust to the shape of the body and the firmness of the seat will give a little bit. Minor differences in seat firmness with add-on units are design-based and are therefore not a cause for complaint.

**Chamber cushions:** This model features high-quality chamber cushions. The filling material is held in chambers within the cushions to prevent it from shifting. The chambers and the filling material can stand out more or less depending on the type and thickness of the cover material. In order to prevent the filling material from bulging, these seat and back cushions should be plumped up, just like you do with pillows.

**Seat depths:** Seat depth 1 (ST1) = 64 cm or  
Seat depth 2 (ST2) = 84 cm - **Please state in your order.**

**A mix of seat depths is possible! A mix for corner elements is possible with „combination corner“ (NOT with angular corner)!**

**Decorative fabric:** The decorative fabric (decorative fabric PG 6 / decorative fabric PG 10) is only available for selected types (Stool, flutter cushions and cushions) and pattern matching is not possible. The prices can be found on PG 6 or PG 10.

**Dimensions:** Height: **84 cm**  
Depth 1: **105 cm**  
Depth 2: **125 cm**  
Seat height: **44 cm**  
Seat depth (ST1): **64 cm**  
Seat depth (ST2): **84 cm**

## Product and ordering information

**Miscellaneous:** All materials used meet the requirements of the DGM according to RAL GZ 430. The seam appearance may vary depending on the fabric, leather or vegan leather used. The markings on quilted mats and cushions are due to design or construction. The processing of decorative seams, cut seams or double seams can be different in the fabric, leather or leather or imitation leather variants.

Suites are standardly delivered with the back covered in the chosen fabric. All material-related information can be found on the back of the individual fabrics and leaterhs in our fabric and leather samplers.

All values stated in the price list are approximate measurements in centimetres, determined by the usual measuring method (see RAL-GZ 430) and in unused new condition. Please note that in the course of use of very casual upholstered furniture, particularly the seat height and seat depth, there may be noticeable deviations from the dimensions given here. We reserve the right to make changes in form, colour and construction in the course of technical progress.
